

it's OKAY to be SMART

A Blog About Science...

...and Other Interestingness

About

There's a lot of science out there. I'm Joe, let me be your guide to the creative side of discovery, big science news, wondrous science visuals, analysis-izations and all the otherwise cool science-y things out there, with all the woo and BS filtered out.

"Everyone's favorite Feynman of the Tumblr era" - Maria Popova

The Geologic Sculptural Paintings of Laura Moriarty

This art rocks. It's really gneiss work. It's first clast stuff. I find little to no fault in it. It really taps into a vein of creativity. You can barely discern if it's sculpture ore earth.

(I'll show myself out)

[More at her gallery.](#) Tap of the rock hammer to [Michele Banks](#) for the link!
