sarah morejohn

Sarah Morejohn's work is a language of delicacy and wonder. By making drawings with dots of ink she is beholden to time and patience. Her work has been exhibited throughout the United States and is in the permanent collection of Montefiore Medical Center, Bronx, NY and The University of Oregon, Eugene, OR. Sarah earned a BFA from The University of Oregon in 2011. Living much of her life in Oregon, the artist now lives and works in New Jersey with her husband and their pet rabbit.
