CECILE CHONG

STATEMENT

A multimedia artist working in painting, sculpture and installation, Cecile's work addresses the process of cultural encounter and entanglement. Her exposure to different cultural objects and ideas has driven her fascination with how these influences are visually acquired, represented and interpreted. She is interested in how cultures copy others, and how borrowed ideas often find their way back to the original culture. This entanglement of culture, history, place and interpretation are themes that she explores in her work.
