

KENISE BARNES FINE ART

SUSAN ENGLISH

BIO

Susan English is a contemporary abstract painter whose work explores the interplay of color, light, and surface through a distinctive process of poured paint. Represented by Kenise Barnes Fine Art, English has developed a unique technique using tinted polymer paints on smooth aluminum panels, allowing her to manipulate the flow and accumulation of color with precision and spontaneity. Her minimalist compositions are rich with subtle complexity, ranging from matte to high gloss finishes that absorb and reflect light in evocative ways.

English's paintings are born from a balance of intention and chance, where the viscosity of the paint and the physics of the pour become collaborators in the creation of luminous, meditative surfaces. Critics have described her work as "sublime" and "buoyant," noting its ability to evoke both serenity and depth.

Her work has been featured in solo exhibitions at Kenise Barnes Fine Art in Kent, Connecticut, as well as at galleries across New York, California, and Texas.
