

## Statement

### PRIMAVERA POP

This series was built out of a personal emergence, a very spontaneous attempt to do something new with something old. The first works of this series were plain and simple recycling of old stencils but applying my new color palette with older pierced paper spolvero stencils. Surprised with these handsome results, I added in the open stencils of my previous "Pop Flower" series to create a new combination that reflected the "re-opening" I was feeling. "Primavera" means Spring in Italian and that seems to strike the perfect note for these new works.
